

Christians during economic test

Capitalism is the ability to work and keep what in great part what you have learned, socialism says part of what you earn belong to the people, communism says every thing belong to every body. It seems like in each system there is some wisdom but which one is the best. In the western world most people do not farm nor even know how to plant a seed to wait for Mother Nature to feed them. Basic living depends in industrial structure, money, and the store to survive.

What should I do as a Christian when the economy fails?

Prayer is the number one thing in moment of economic distress, it gives you more senses to take better action, It is remarkable that in poorer countries people are more opened to the gospel than the rich countries, a possible hidden treasures for the last days.

This is the best time for sacrificial giving, the money is there somewhere , it is simply not the mass people hands. Be faithful to your God, in tithe and offerings, reduce in unnecessary spending.

I remember in August 2007, I was going through a testing that also had a negative effect on my ministry, But at the same time, it was the time when the Lord spoke unto me concerning some great prophecies to come, the ingathering of the twelve tribes of Israel. I believe God had touched the economy to get a new president elected so the Israelites can be gathered soon. This would open the eyes of believers, to something they have never thought before, I also believe that the U.S. economy will be fixed soon. (Huberto Almonord)

Haitian Eben Ezer Church, Columbus, Ohio

A year ago Maranatha Christ Revient had preached a crusade at a small Church Haitian Church in Columbus Ohio, I was the guest speaker for the conference. One thing that usually come out of spreading the words in different places, is making new friends. I met some wonderful Christians in Columbus, one of them is the Ducheine family, they believe in the Lord and have two children a daughter and a son. The family travel one hour from a remote distance from the city to come for worship every Sabbath.

The Church is part of the Haitian community presence in Columbus that some Haitians think is their best options for living in America. Housing is a lot cheaper than Brooklyn, Boston or Chicago, jobs are not the best but one can get by, if you put your heart to it. Columbus is five and half hour from Chicago and about nine hours from Brooklyn, it is kind of in the middle of two great cities with lot more Haitians. It is an unusual place for Haitians to find their community especially church activity. Few months after the crusade the Ducheine family had gone through the experience of losing their niece, which was a shock to the community, our trip to Columbus was some sort of missionary work to offer our help in healing the wound of losing a love one.

The church welcomes any visitor on Sabbath, pastor Vergnau Angrand is available to speak to any one who wishes to visit the church.
