2008, Historic and prophetic year

The church that has been created to seek the lost children of Jacob, had been used without knowing to kill lost tribes of Israel. First by remaining neutral about the war or second by boldly supporting the war. Notice revelation seven said let all the wind of heaven be held in order to seal the 144, 000. The winds here represent strife and wars, so the war of Iraq is just the opposite of what the bible said need to take place in order to seal the 144, 000 of the tribes of Israel. Since the ingathering of the lost tribes of Israel has not yet taken place and they should be gathered first before the sealing of the 144, 000, therefore the war of Iraq, was designed by Satan and its agents to counteract the Ingathering of the twelve tribes of Israel and the set up of the kingdom of God.

Recent studies show that the Pashtuns in Afghanistan and some of the people living in Kashmir India/Pakistan are actual lost tribes of Israel. This will be revealed with more details in the years to come when the Lord commences the ingathering. Satan has been waging war against the Israelites for years they are not even aware why so many misfortunes are happening to them.

I believe the new president, Barack Obama is going to be guided by God in order to protect the Israelites and create an environment of peace in Iraq and Afghanistan. This will facilitate the ingathering the twelve tribes of Israel.

May God bless Israel
Huberto Almonord
